Date:

Dear Sir,

College of Engineering Trivandrum Alumni Association Trivandrum Chapter (CETAAT), a prestigious organisation comprising of eminent technocrats, architects, management experts, project management consultants, entrepreneurs etc., as its members was founded in 2013 with the objective of meaningful engagement with the society by way of technology dissemination and also through other cultural, social and charity activities.

One of the flagship programmes that CETAAT conducts every year, is "CETAAT TECH KNOW", the Two day Technical Workshop that targets engineering delegates from the State, Central Govt departments, public sector undertakings, other stakeholders, decision makers, practicing Architects, Consultants and engineers in the private sector. The topics of the workshop are so planned to help the delegates to have a better understanding of newer and emerging global trends and technologies in construction. The speakers of the topics are selected, based on the knowledge and expertise in their chosen field of specialisation.

This year, CETAAT is organising the 6th edition of the Two day Technical Workshop - CETAAT TECH KNOW 2025: Advancements in Construction Technology, on 18 & 19 February 2025 at Hotel Residency Tower, Press Road, Trivandrum. It will be inaugurated by the well known technocrat, the missile woman of India, Dr Tessy Thomas, in the august presence of former ISRO Chairman Padma Vibhushan Dr G Madhavan Nair and eminent Architect N Mahesh, Iyer & Mahesh (Architects, Planners & Engineers).

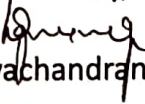

CETAAT had previously organized Technical workshops in 2019, 2020, 2022, 2023 and 2024 on Good Practices in Construction, Advances, Trends and Amazing Innovations in Building Construction covering presentations on relevant subjects by experts in the field. These workshops were successfully organised, mainly because of the continued support and requests from the participating organisations. There was remarkable participation of delegates from the Central and State Government Departments like VSSC, Vizhinjam International Seaport, IIA, KIIFB, PWD, Irrigation, KWA, KSEB, LSGD, Town Planning, Harbour Engineering, leading Architects, real estate developers (CREDAI) and Builders Association of India.

The Workshop aims to update the multi-disciplinary knowledge requirement for architects and engineers and to equip them to adopt modern technologies. It is a well thought out and meticulously planned workshop by CETAAT to bridge the gap between acquired knowledge from our engineering institutions vis-a-vis the challenges in the construction industry.

We request you to depute technical staff from your esteemed organisation for the Two day Workshop. A nominal fee of Rs.3000/- will be collected from each participant and the Course Certificate will be issued at the Valedictory function.

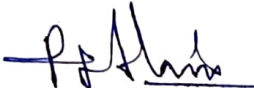

Thanking you and with warm regards

Yours sincerely,

Er. Jayachandran V S
